

MAXIM IFB

LOW NOx WATER HEATER

The legendary value of PVI's MAXIM vertical fire tube water heater now with revolutionary low NOx technology

NICKELSHIELD®
nickel-plated storage tank
OR
POLYSHIELD®
polymer-lined storage tank

Copper-clad fire tubes

Pre-mix, low NOx
IFB burner

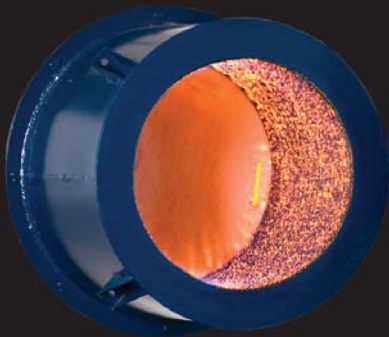

TempTrac®
Electronic operating control
with ModBus connectivity.
Digital accuracy to within 1°F.

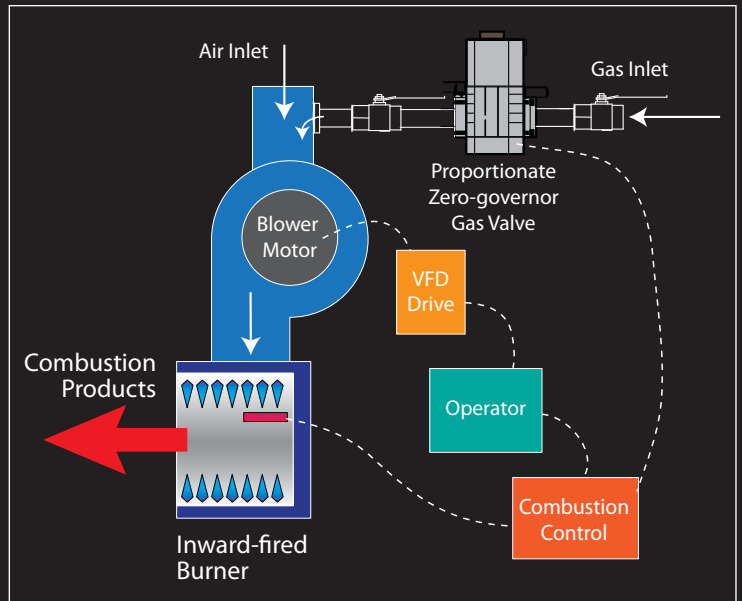

Inputs from 399,000 to 1,700,000 Btu
125 ▪ 250 ▪ 300 Gallon Storage Tanks

PVI's Exclusive Inward Fired Burner

- Premix surface burner with high temperature metal matrix over stainless steel
- NOx levels as low as 5 ppm, 3rd party tested
- Patents applied for worldwide

Proportionating gas valve automatically adjusts to changes in vent pressure and air density ensuring optimal combustion efficiency.
